

Domain 2 – Essentials for Practice and Care:

2.1. Patient-centered care (Caregiver) - Provide patient-centered care as the medication expert (collect and interpret evidence, prioritize, formulate assessments and recommendations, implement, monitor and adjust plans, and document activities)

All faculty for a given course are encouraged to develop and/or share lecture objectives with the other faculty in the course. Some tips to consider when developing your lecture objectives include asking yourself the following questions:

What do I want the student to take away from my teaching?

If I'm the student, what do I have to do to convince you that I'm where you want me to be at the end of the course?
