LEGACY PORTAL

Legacy Portal: How to Push Grades to an LMS Integration

🕒 Sep 15, 2017 • Tutorial

How-To

Once you have completed grading of an assessment, you may need to manually Push grades from ExamSoft to your connected LMS. From the Assessments home page:

Click the ; **Yf** icon in the right-hand corner to add a column to be displayed.

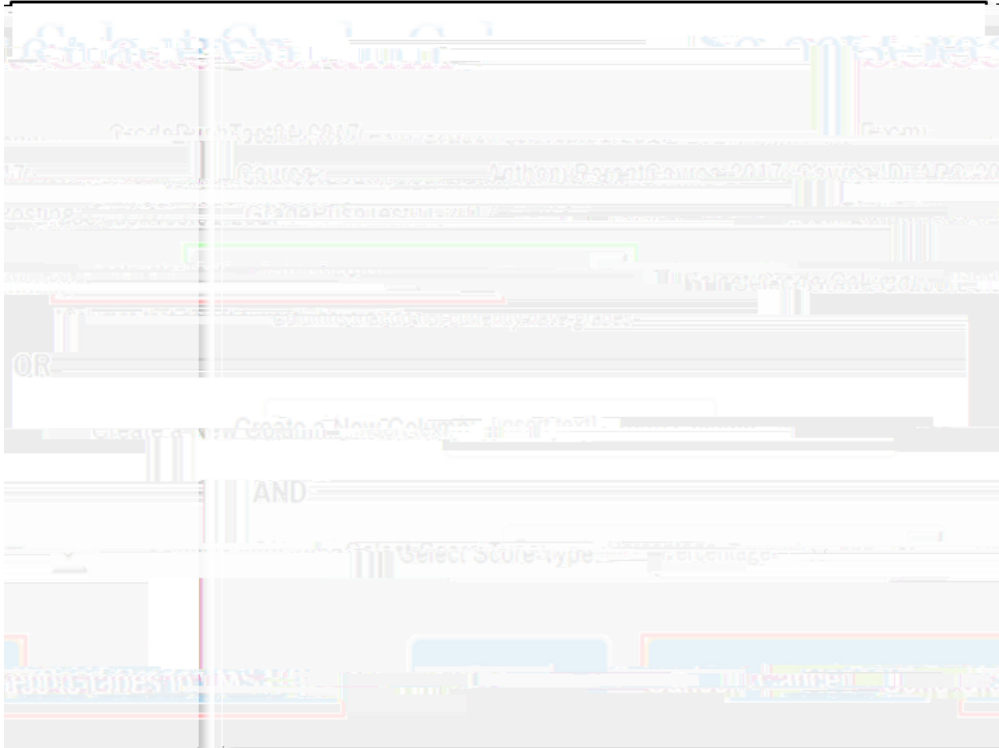

Select **Di gl ; fUXYg hc @AG** from the list. A new column will populate within the window.

Locate the assessment for which you wish to push the grades to LMS. Click the **Di gl ; fUXYg** button.

Select an Existing Column or Create a new one using the options in the modal window. This name

will be shown within your LMS' grade-book. Select the Score Type that will be pushed over. Click **GYbX**; **fUXYg'tc'@AG** to finalize this process. You will see confirmation if this action was successful.
